

PRODUCT USE GUIDE FOR CLEENZYME HAIR DEGRADER E33

Product Description

Regular use of Cleenzyme Hair Degradar effectively removes hair and body fat build-up in drains and sink plug holes. It removes the source of smells and eliminates the cause of blockages and other drainage problems. Contains up to 20 dose applications.

Product Features

- A unique non-toxic, biodegradable combination of microbial and chemical technologies which work in combination to significantly reduce the build-up of hair and associated blockages in sinks, showers and pipework systems.
- Hair degrader has been designed with the environment in mind and offers an effective, ecologically compatible alternative to more conventional caustic treatments.

Direction for Use

- Pour 50ml of product into each affected sink drain, shower plughole. For best results, dose last thing at night. Do not flush any further water into the outlet once product has been added. Leave the product a minimum of 8 hours before rinsing through with warm water.
- Stubborn blockages may require repeat applications.
- Dose problematic sinks, showers and drains on a weekly basis to maintain blockage free outlets and pipe work.

Storage

- Store in cool conditions away from direct sources of heat
- Avoid extremes of temperature
- Do not allow to freeze
- Ensure the cap is tightly fitted after use
- Keep out of reach of children

Shelf Life

- Shelf life 24 months, if stored as recommended.
- Use within 6 months of opening.

Environmental Hazards

- The surfactants contained in this preparation are ultimately biodegradable and thus comply with the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents. However, do not allow large quantities of product to enter surface waterways.
